

FOREST & PAPER INDUSTRY AT A GLANCE

Tennessee

The American Forest & Paper Association (AF&PA) is the national trade association of the forest products industry and advances public policies that promote a strong and sustainable U.S. forest products industry in the global marketplace. The industry is an integral part of our nation's green job base and generates approximately 5 percent of the total annual U.S. manufacturing GDP.

AF&PA's member companies make pulp, paper, packaging and wood products, and own forest land. Our companies make essential products from renewable and recyclable resources that sustain the environment. Nationwide, the U.S. forest products industry:

- Employs nearly 900,000 workers exceeding employment levels in the automotive, chemicals, and plastics industries.
- Provides green jobs that reduce greenhouse gases by sustaining the forests that absorb carbon dioxide; making the paper and wood products that store it; generating and using more renewable energy than wind, solar and geothermal combined — 28.5 million megawatt hours annually, enough to power 2.7 million homes; and recycling paper to avoid methane emissions and reduce waste.
- Is among the top ten manufacturing sector employers in 47 states.
